

## TACA SAT Math Course Tentative Syllabus/Flyer (12/2009)

**Objective:**

To practice SAT math questions by taking in-class tests on SAT math subjects every week and going through solutions. The name of the game is “*practice, practice, practice and learn from our mistakes until we master*”.

**Who can attend?**

Any student who is planning to take SAT.

**Fee:**

No charge for TACA members.  
\$50 for non-members.

**Where:**

TACA Building  
3845 N. Harlem Ave.  
Chicago, IL 60634

**When:**

Saturdays, 9:00-11:00 AM (or whenever class is dismissed).  
Kick off on **Saturday, December 5, 2009**.

**Required Textbook:**

Barron’s SAT Math Workbook, 4<sup>th</sup> Edition.  
ISBN 13: 978-0-7641-4196-6  
ISBN 10: 0-7641-4196-51

**Communication:**

Via email: [taca.ataturk.okulu@gmail.com](mailto:taca.ataturk.okulu@gmail.com) (Please write “SAT” in subject)

The students are expected to be punctual each week, bring necessary tools (pencil, eraser, calculator, notebook, etc.) with them, and participate in class discussions. The course starts on **Saturday, December 5, 2009** and will last for 11 weeks or longer, depending on the coverage of course materials.

The course will cover the following math topics:

- Arithmetic Skills and Concepts
- Algebraic Methods
- Word Problems
- Geometric Concepts and Reasoning
- Special Problem Types

*\*\* TACA SAT Instructors are looking forward to meeting all interested students\*\**
